MARKETING SOLUTIONS

Our digital marketing services are not just a service, but an experience to cherish!

MARKETING CONSULTING SERVICES

The consulting services sector has a significant role in the success and expansion of businesses. With consultation, we help you identify the nature of your business, study competitors, and the market you are targeting. Thus, propose the most effective marketing solutions for your business and ways to implement them.

CONTENT CREATION

Content is The King! A corporation might not have an expert team to create and manage their website's content and social pages, which needs to be updated continuously, therefore we offer this service and have a team of professionals who specialize in content writing and are more than capable to create the best content for any business.

SEARCH ENGINE OPTIMIZATION (SEO)

Our team works based on the standard SEO techniques and practices in line with Google policies including On-page / Off-page SEO optimization and Keyword Analysis. We also offer Website Analysis and monitor the updates and enhancements that Google publishes consistently, whether technical updates or content updates that Google prefers.

CREATIVE DESIGN SERVICES

As the core of any company's identity, Portals brings together content, branding, visualization and conceptual design and shape it in an appealing way for everyone to know and be able to recognize instantly. Our creative works include Graphic Design, Motion Graphic Videos and Brand Design

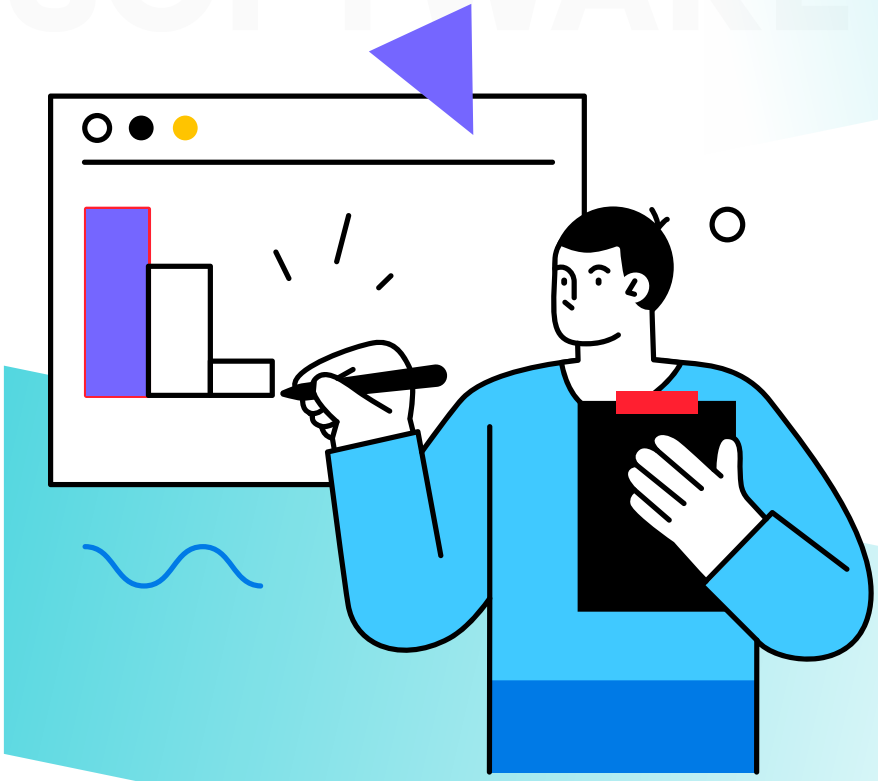
SOCIAL MEDIA MANAGEMENT

It is essential to know the techniques and methods of reaching your customers on social media in order to be able to provide what they need at the right time and place. Our team of experts manages and analyzes different social media platforms such as Twitter, Instagram, Facebook, Snapchat, etc. to help you better reach and engage with your target audience, which in return saves you the time and effort.

PAID ADS CAMPAIGNS

At Portals we plan, launch, monitor and optimize ads to reach goals and achieve a real return on investment. We offer detailed plans for Ad Campaigns and the most effective execution using different social media platforms, Google and Email.

SOFTWARE SOLUTIONS



SOFTWARE SOLUTIONS

WEB DESIGN AND DEVELOPMENT

Professional web design and development positively affects the impression that customers and visitors take of you at first glance.

Using our professional web design and development services, we help you influence visitors and their journey positively, thus achieving your marketing goals by offering Systems Analysis, Website Design, Website Development, E-learning and E-stores.

CUSTOMER RELATION MANAGEMENT SYSTEM (CRM)

In CRM service, we work on designing the interface of the system, programming the system, and then testing how the entire system works in order to provide the best customer management system for you and your company.

MOBILE APP DEVELOPMENT

There is no wonder that the mobile app industry is thriving with the growing demand for smart solutions to have everything at the click of a button. Moreover, smartphone penetration and app usage are steadily growing. We offer UI\UX Design and App Development for E-stores, Corporate and Custom apps using different programming languages that we master (i.e. Android, IOS, Flutter, React Native, etc.)
